Page 14 Page 16 1 through 55? A. So I met with a handful of our 2 A. Yes. 2 school district counselors, the department --Q. Okay. Then under School District 3 the director of school safety, director of 4 Performance and Operations, which begins on 4 student relations, director of instructional 5 page 17, are you prepared to testify about 5 technology, director of human resources, 6 Topics 56 through 59? So not Topic 60 in that 6 assistant superintendent of curriculum and 7 section. 7 instruction, counseling coordinator for middle 8 A. Yes. 8 school and high school. And I believe that Q. Okay. Going on to page 18 where it 9 covers it. 10 says Relief, are you prepared to testify to 10 Q. Okay. I want to walk through a 11 Topics 61, 62, and 63? 11 couple of those. A. Yes. You said you met with a handful of 12 12 13 Q. And then, finally, under Other 13 school district counselors. Do you remember how 14 District-Specific Topics, are you prepared to 14 many? 15 testify to Topics 64 and then 66 through 69? 15 A. Roughly ten. A. It was my understanding that 66 Q. And were those counselors from --16 17 were they assigned to a specific school? 17 would have been a previous defendant. Q. Excuse me. I think I misspoke. 64 A. Yes. So each of our schools, they 18 18 19 do have either one or multiple school 19 through 67 through 69. A. So 64, 65, 67, 68, and 69? 20 counselors, and so the call was put out to any 21 MR. CUTLER: 64, 67, 68, 69, I think 21 school counselors who were interested in 22 22 discussing with me. So there was about ten is what she said. 23 THE WITNESS: Yes. 23 school counselors ranging from elementary, 24 BY MS. DEGTYAREVA: 24 middle, and high school who were involved. 25 25 Q. Of those approximately ten Q. Okay. 64, 67, 68, and 69, are you Page 17 Page 15 1 prepared to testify about those topics? 1 counselors, do you remember how many were 2 A. Yes, correct. I apologize. 2 assigned to middle schools versus high schools 3 Q. Thank you. 3 versus elementary schools? 4 And do you understand that your A. From my recollection, I don't 5 testimony today is the testimony of Tucson 5 remember exactly, there was at least two that 6 Unified School District? 6 were representing middle school, and then 7 A. Yes. 7 probably five or six were at the elementary Q. So because you are testifying on 8 school level, and the rest were at the high 9 behalf of the school district, I sometimes might 9 school level. 10 say "you" in my questions, and when I say that 10 Q. So you said -- so if there's about 11 I'm referring to Tucson Unified School District. 11 two at middle school, five or six at elementary, 12 Do you understand that? 12 does that mean two or three were high school? A. I do. 13 13 Does that sound about right? Q. What did you do to prepare to 14 14 A. Yes. 15 testify for all of the topics that you've been 15 Q. Do you remember -- do the 16 designated on? 16 counselors -- are they assigned to any 17 particular type of topic area or subject area, 17 A. So I met with our legal counsel, 18 outside legal counsel as well as internal legal 18 or do all counselors just provide general 19 counsel. I reviewed some of the documents 19 counseling services? 20 within this case that were shared with me from A. So in TUSD we following the ASCA 20

9 BY MS. DEGTYAREVA:

10 Q. So what was the purpose of your 11 meeting with Dr. Hoover?

MR. CUTLER: I'm going to object to 12 that to the extent it calls for privileged 13

14 communications.

15 BY MS. DEGTYAREVA:

Q. So, Ms. Shivanonda, unless your 16

MR. CUTLER: Yeah, I'll instruct you 18

21 Q. In terms of preparing for this -- to

22 testify about the topics that you were

23 designated for in this deposition, what did you

24 discuss with Dr. Hoover?

25 MR. CUTLER: Again I'm going to

A. Dr. Flori Huitt. And then counseling coordinator for

A. Rebecca Carrier.

Q. And for all of those positions, are

4 all of those positions sort of there's just one

5 person in each position, or are they kind of

6 like the counselors where there other people in

7 those positions that you didn't talk to?

A. No, they are those of those

9 positions, correct.

Q. Okay. So apart from those people we 11 just talked about, anybody else other than

12 counsel that you spoke to to prepare for the

13 deposition?

14 A. I don't know if that was part of

15 preparation, but we did meet with an expert,

16 Dr. Hoover.

18

17 O. What's his first name?

MR. CUTLER: You can answer.

19 THE WITNESS: I don't remember her

20 first name.

22 Q. Her first name.

23 And what type of expert is

24 Dr. Hoover?

MR. CUTLER: I'm going to object. 25

preparation.

3 And I'll instruct you not to answer.

4 BY MS. DEGTYAREVA:

5 Q. So just to be clear, did you meet

6 with Dr. Hoover to prepare for the deposition?

MR. CUTLER: I think she answered

8 that.

2

7

9 Go ahead.

10 THE WITNESS: No. In terms of these 11 topics, in preparation was meeting with

12 stakeholders within the district. As part

13 of the larger context there was a meeting that happened with Dr. Hoover. 14

15

MR. CUTLER: Which is separate from 16 this deposition, so I think the questions

are about the deposition preparation. 17

18 BY MS. DEGTYAREVA:

19 O. Got it.

20 So in terms of preparation for the

21 topics that you were designated on for this

22 deposition, apart from the people we talked

23 about, and your counsel, anybody else that you

24 met with to prepare?

A. No.

Page 28

1 MS. DEGTYAREVA: Okay.

2 BY MS. DEGTYAREVA:

- Q. So for public documents, apart from
- 4 these governing board meetings, any other public
- 5 documents you reviewed?
- 6 A. TUSD governing board policy
- 7 documents as well as academic performance data.
- Q. Okay. And the academic performance
- 9 data, what types of documents is that in?
- 10 A. School letter grades.
- Q. Are those public documents? 11
- A. Those are public documents, yeah, 12
- 13 the school report cards essentially through the
- 14 Arizona State Department of Education.
- Q. Got it. 15
- Okay. You also mentioned discipline 16
- 17 and school safety data. What does that refer 18 to?
- 19 A. So that would be data that is
- 20 elicited from our student information system.
- 21 So as we -- as the district reports
- 22 student-level discipline, it gets reported into
- 23 the Synergy, Student Information System, and so
- 24 through my discussions with the director of
- 25 student relations we reviewed specific

Page 27

- 1 student-level discipline data in preparation for
- 2 being prepared for some of these topics.
- Q. This is all data in Synergy? 3
- 4 A. Yes.
- Q. Did you review just sort of
- 6 aggregate numbers, or did you look up specific
- 7 individual reports in Synergy?
- A. Aggregate numbers.
- 9 Q. And so did you look at any
- 10 details -- beyond just how many numbers of each
- 11 violation, did you look at any details about
- 12 what those particular violations -- who they
- 13 were against, when they happened, what they were
- 14 about?
- 15 A. Not in detail, no.
- 16 Q. You say "not in detail." Can you
- 17 explain what you mean by that?
- A. So through conversations as an
- 19 overall analysis of the data, discussions around
- 20 more specific information, but the actual
- 21 reports that I looked at were just the aggregate
- 22 numbers.
- 23 Q. Got it.
- So you looked at the aggregate
- 25 numbers, but then you had conversations with

Page 26

1 others about details underlying those numbers?

- 2 A. Correct.
- 3 Q. And who did you have those
- 4 conversations with?
- 5 A. Anna Warmbrand from student
- 6 relations, and Joe Hallums from school safety.
- 7 Q. Okay. You talked about data
- 8 collected "from our student information
- 9 systems." What data is that? Is that the
- 10 Synergy data, or is that something else?
  - A. That's the Synergy data.
- Q. And then other documentation around 12
- 13 the multi-tiered system of support data, what
- 14 does that refer to?

11

- 15 A. That is also housed in Synergy, our
- 16 student information system. There is a section
- 17 within Synergy called MTSS dashboard, and so
- 18 looking at -- and that is our intervention
- 19 dashboard, so looking at specific numbers of
- 20 interventions based on certain categories to
- 21 give a broader picture of being able to answer
- 22 some of these topics.
- 23 Q. So apart from the discipline data
- 24 and then the MTSS data in Synergy, any other
- 25 data in Synergy that you looked at?

Page 29

- A. Well, part of the data that was part 2 of discipline data is also the data that
- 3 connects to school safety, and how school safety
- 4 may or may not have responded in relation to the
- 5 discipline data.
- Q. Can you explain what the school 6
- 7 safety data is?
- A. So if there are disciplinary
- 9 instances that happen on a school campus that
- 10 may warrant school safety response, that would
- 11 be collected within the investigation in a
- 12 disciplinary instance.
- 13 So some of the questions asked about
- 14 whether or not school safety was a component of
- 15 -- in some of these topics, so looking at
- 16 potential -- if the overall, kind of, numbers
- 17 around how often school safety may or may not
- 18 have responded to any disciplinary instances on
- 19 school campuses.
- Q. And was that aggregate data, or was 20
- 21 that specific data about specific incidents?
- 22 A. Overall aggregate.
- 23 Q. Got it.
- 24 When you talk about data that
- 25 counselors collect, data that counselors

8 (Pages 26 - 29)

Page 30 1 collect, what type of data did you review that 1 meeting, if they provided intervention supports 2 counselors collect? 2 based on an intervention plan. A. So counselors, they collect data Q. And the data that the counselors 4 around number of students who are either 4 collect, would that also include data about 5 referred to them for support of any kind or 5 individual students they met with? 6 whether or not students visit the counseling 6 A. They do. So we do have processes in 7 office for any sort of report or needs. 7 the district for majority of our support staff, 8 Also school counselors provide 9 interventions based on what I said the previous 10 data are on, MTSS, so they collect that data. 11 Counselors also in the past have 11 12 done more needs assessment type data around 13 their schools to drive their operating, whether 14 they do specific groups on school campus, and 15 so, but that -- over time due to legislation 15 aggregate data. 16 that has been hindered somewhat. 16 So just overall data around the use 18 of time for counselors of how often they're 19 meeting with students, how often they are 19 counselors collect. 20 providing classroom lessons, and then numbers of 20 21 students visiting the counseling office. O. Is all of that data stored in a 22 22 A. No. 23 database of some sort? 23 Q. 24 today? 24 A. It's internal. So our coordinators 25 of counseling, they collect that data. That's 25 A. No.

8 when they do meet with students for specifics, 9 and so all of that is housed in the Synergy 10 student information system. Q. And the data that you reviewed, did 12 that include data about individual students that 13 the counselors met with? A. No, it did not. I was looking at Q. Okay. Any other categories of data 17 that we haven't -- we talked about the data in 18 Synergy, the public documents, the data that the Any other categories of data or 21 documents you reviewed? Did you bring any documents with you Page 33 Q. And as you were reviewing the 2 documents or talking to the people, apart from 3 counsel, did you make any notes?

Page 32

Page 31 1 generally through things like Microsoft Forms 2 that are internal data. Q. Okay. So do individual counselors 4 fill out a form every time they meet with a 5 student, or how do they -- how frequently would 6 they fill out these forms? 7 MR. CUTLER: Object to form. 8 You can answer. 9 THE WITNESS: Okay. It depends. So counselors, they will -- their time of 10 11 use, depending upon the level, so our 12 coordinator that supports middle and high school, they do time of use, and she asks 13 14 for them to submit that quarterly, whereas 15 in elementary and K-8, that coordinator, 16 she has -- she asks for that data on a monthly basis. 17 18 BY MS. DEGTYAREVA: Q. The time of use data, is that just 20 here's how many hours I worked in a day, or is 21 that split up in a different way? A. It is, again, based on, you know, 23 number of small groups or classroom lessons or

24 number of students that they interacted with in

25 their office, or if they participated in an MTSS

4 A. Not outside of being directed by 5 counsel. Q. And did you bring any notes with you 6 7 today? A. No, I did not. 9 Q. Apart from what we've already talked 10 about, anything else you did to prepare for the 11 deposition today? 12 A. No. 13 Q. Are you familiar with the 14 allegations in the case? 15 A. From what I -- from talking with 16 counsel and based on the documents that we've 17 already discussed that we've reviewed --MR. CUTLER: If your understanding 18 19 is from counsel, I would instruct you not 20 to answer. If you have a 21 self-understanding, then respond with 22 that. 23 THE WITNESS: Okay. My general

understanding is from discussions with

- Q. So at a high level, do you
- 3 understand that TUSD has filed a lawsuit that
- 4 alleges that it has been harmed by defendants'
- 5 platforms?
- 6 A. Yes.
- Q. So when did TUSD first begin to
- 8 believe that defendants' platforms were causing
- 9 harms in its schools?
- 10 A. So, first, that's -- that's kind of
- 11 a difficult question. I think explicitly, the
- 12 explicit intention or kind of investigation
- 13 whether or not to move forward with a lawsuit,
- 14 it's my understanding that those discussions
- 15 began in spring of 2023 with the governing
- 16 board, along with Dr. Trujillo, our
- 17 superintendent, and legal counsel, creating,
- 18 drafting the resolution to move forward in
- 19 September of 2024.
- Q. So before spring of 2023, did TUSD
- 21 have an understanding that defendants' platforms
- 22 were causing harms in the schools?
- A. It is my understanding that there
- 24 was a level of understanding that there was a
- 25 causal link between some of the harm that we

Page 34 1 Also, since 2014 we have had several

- 2 iterations of data platforms, and so in previous
- 3 data platforms it looks a little bit different
- 3 data piatforms it fooks a fittle bit different
- 4 than what our data platforms look like now. So
- 5 being able to determine exact data and
- 6 information, I'm not aware that -- if I could
- 7 speak directly to that from that time period
- 8 just because of the changes in data collection.
- 9 Q. What were the previous platforms
- 10 that were used?
- 11 A. Previously to Synergy the district
- 12 had an in-house-developed platform called
- 13 Mojave, and so it was a student information
- 14 system platform. It was also where a lot of our
- 15 support staff documented their time, documented
- 16 disciplinary actions, or any supports that they
- 17 may have provided to students and/or
- 18 conversations with families.
- 19 Q. So when did the district switch from
- 20 Mojave to Synergy?
- 21 A. If I remember correctly, I believe
- 22 that was around either 2017 or 2018.
- Q. Was the data from Mojave transferred
- 24 into Synergy?
- A. As much as it was able to. So I'm

Page 35

- 1 were noticing and direct causal link, or
- 2 perceived causal link, to defendants' platforms,
- 3 yes.
- 4 Q. When did TUSD first start to think
- 5 that there was a causal link?
- 6 A. So from my understanding and in my
- 7 work, when we really started to see a direct
- 8 response was probably right around the --
- 9 anywhere from 2014 to 2016 when we started to
- 10 see an increase of discipline data and social
- 11 emotional needs in students based on the
- 12 increase of use of cellphone and social media
- 13 platforms within our schools.
- 14 Q. You say an increase in discipline
- 15 data and social emotional needs.
- During that time period, 2014-2016,
- 17 are you aware of any data that showed those
- 18 increases were connected to cellphones or social
- 19 media?
- 20 A. So there's definitely anecdotal
- 21 data.
- 22 And then in terms of the school
- 23 district in collecting that data, it's
- 24 difficult. Not all of that data is necessarily
- 25 able to be collected explicitly.

Page 37

Page 36

- 1 not a technology expert, and so my understanding
- 2 is somewhat limited on how that can transfer.
- 3 So that may have been some archived data, and
- 4 then some of the data that could have been
- 5 transferred. I believe, was transferred into the
- 6 Synergy platform.
- 7 Q. Does the district still have any
- 8 data that was not able to be transferred from
- 9 Mojave into Synergy?
- A. I am not 100 percent aware. I do
- 11 know that, I believe it was two years ago, the
- 12 district was involved in a technology breach,
- 13 and so I know because of that a lot of previous
- 14 data may not have been recovered. I don't know
- 15 from what departments, what data was able to be
- 16 recovered and not prior to moving into more of a
- 17 cloud-based system.
- 18 Q. TUSD asked its board of directors to
- 19 authorize bringing this lawsuit at a meeting on
- 20 September 12, 2023, is that right?
- A. Can you repeat the question?
- 22 O. Sure.
- 23 TUSD asked its board of directors to
- 24 authorize bringing this lawsuit, right?
  - 5 A. From my understanding, it was a

A. Throughout governing board meetings

23 there are numerous topics that are brought to

15 against social media companies, were there any	15 of conduct, there is a specific section around
16 resolutions passed by the board that related to	16 improper use of technology. And so that was
17 social media?	17 also the verbiage was discussed and updated

1 adjusting our code of conduct due to that.

2 So through the analysis of the data,

3 looking at the code of conduct, improper use of 4 technology was one of them.

5

We do also look at, you know, 6 substance abuse as well as aggression data, and

7 all of that, also, I believe that there was some

8 discussion around the use of social media in

9 excess for some of those, and so updated some of

10 the code of conduct language due to that.

Okay. You mentioned substance 11 Q. 12 abuse.

13 What changes were made to the code

14 of conduct related to substance abuse that were 15 made because of social media?

16 MR. CUTLER: Object to form. THE WITNESS: So in the district we 17 18 have been very responsive to looking at 19 the needs of the community, and then 20 monitoring the data around the use of

21 substance use in our schools and in our 22 community. 23 We've also looked -- we've also

24 created different opportunities for interventions and resources and supports. 25

- 1 of students, as well as board actions around the 2 use of social media and technology.
- Q. When was the code of conduct -- the
- 4 new code of conduct created?
- A. I don't remember the year. GSRR, I 6 think was through 2020. There was a previous 7 director. I want to say either 2020 or 2021.
- 8 Q. Has the code of conduct been updated 9 since then?
- 10 A. It has. It is updated yearly.
- Q. So is it your testimony that the new 12 code of conduct that was created in either 2020
- 13 or 2021, was that created because of social 14 media?
- 15 MR. CUTLER: Object to form.
- 16 THE WITNESS: The code of conduct,
- the new -- it was just a new iteration of 17 our previous guides and responsibilities. 18
- 19 So we have always had expectations of our
- 20 students. And then that also connects
- 21 with the due process as we look at
- 22 disciplinary practices within the
- 23 district.
- 24 And so as we continue to change with
- 25 the times, as we identify disciplinary

12 (Pages 42 - 45)

And so we have in the past, as part of our code of conduct, if students are engaged with substances, then there was a stipulation in the code of conduct where students were able to engage in substance abuse workshop courses to reduce part of their discipline.

And then with our newer, updated department for substance abuse that we are working on this year, we are adjusting that, and that is no longer part of the code of conduct to where -- discipline.

One of the reasons for that was we were noticing that students were not necessarily engaging in those workshops and continuing to use and abuse substances. And so the adjustment of the code of conduct was falling back more on the progressive discipline and following through with that discipline versus

21 lightening the discipline, so to speak. 22 BY MS. DEGTYAREVA:

- 23 O. So. Ms. Shivanonda, which of these
- 24 changes were made as a result of social media?
  - A. In response to what we've been

1 seeing in our schools. So, again, as we look at 2 discipline data, the through line through most

3 of our discipline, we are finding that there are 4 connections to social media.

So often we would find substance 6 abuse or substance use on our school campuses 7 and through investigative practices identify 8 that a number of those instances were involved 9 with substance -- were involved with social 10 media. Students were receiving substances,

11 buying and selling substances via social media

12 platforms and practices. And so that also

13 adjusted the -- with the improper use of

14 technology on our campus, and then looking at

15 any of the other disciplinary practices that may

16 occur of that.

17 So if a student was engaging on 18 social media or improper use of technology, and

19 then if there was an aggression component, then 20 we would look at the progressive discipline.

21 And so all of that is wrapped in and connected

22 to the ongoing data points and analysis of how

23 we look at our discipline data to then adjust

24 our code of conduct and our progressive

25 discipline practices.

Page 46

1 Q. When you talk about the discipline

2 data, are you referring to the Synergy data?

Page 48

A. Yes.

Q. So in the Synergy data, where would 4 5 you look in the data to see if an incident was

6 related to social media?

A. So that can be somewhat tricky. So

8 as we -- the way that the district documents

9 data, there's only so much information that can

10 be housed within Synergy. And so we look at the

11 highest level of infraction, and then through

12 the investigative process are able to then

13 determine the trigger point, so to speak, of

14 that discipline.

15 So in a lot of our discipline

16 practices, we were -- or discipline data, we

17 might see a higher level of on the -- the code

18 of conduct. That will be as kind of the main

19 disposition.

20 And then in a lot of the notes that

21 administrators might be adding to that

22 discipline entry would be in the investigation

23 as they're talking to the student that was

24 involved and the other students, any other

25 witnesses. And so through those we are then

Page 47 Page 49 1 able to identify the majority of our discipline

2 practices are somehow connected to the use of

3 social media.

But, again, in our discipline, that

5 top infraction is because of the way that the

6 code of conduct is written, and then how we then

7 assign consequences based on that, and so we may

8 or may not always see in all of the discipline

9 records.

10 However, anecdotally, as we talk

11 with administrators on a regular basis, school

12 counselors, our administrators do work with

13 their regional assistant superintendents, as

14 well as student relations, as they look at the

15 overarching code of conduct and the infractions

16 to determine what a disciplinary consequence may

17 be. And so through those conversations we can

18 see that that kind of through line is generally

19 connected with social media in some way.

20 Q. So those notes you mentioned, would 21 those be notes that are accessible in Synergy?

22 A. They could potentially. It also

23 depends on the way that investigations are --

24 not all of the notes from an investigation might

25 always make it into Synergy, again, due to the

13 (Pages 46 - 49)

Page 50 Page 52 1 platform itself and how we are able to document. 1 that they're required to fill out that then gets Q. Well, we would look at the overall 24 School District's Second Supplemental Initial 25 discipline data within Synergy, and then have 25 Disclosure Statement Pursuant to Federal Rule of Page 53 Page 51 1 conversations with administrators. 1 Civil Procedure 26(A)(1)(A)(iii). The other component of that, if we 2 And can you please turn to page 2? 3 So this is page 3 of the exhibit, but on the 3 were to look into that data, all of our schools 4 bottom of the page it says number 2.

Do you see where it says Second

6 Supplemental Initial Disclosures at the top of

7 the page?

8 A. Yes.

9 Q. And then looking below, it says,

10 "Tucson Unified School District responds that,

11 at this time, it believes its estimated

12 approximate past compensatory damages total at

13 least \$103,211,006."

14 Do you see that?

A. I do. 15

16 Q. Okay. So these are -- the

17 approximately 103 million, those are the

18 monetary losses that TUSD attributes to

19 defendants' platforms, is that correct?

20 A. Yes.

21 Q. Then looking at the chart that lists

22 -- kind of gives some more detail on how those

23 losses are broken down, are there any monetary 24 losses that TUSD is claiming are attributed to

25 defendants' platforms that are not listed on

4 do follow a practice of looking at their

5 school-level data.

We have what's called behavior

7 management team meetings that are required with

8 every school twice per month where they look at

9 their weekly and their monthly discipline data,

10 and then they have conversations around the

11 hotspots around the schools, are we seeing that

12 we're seeing an increase of fights on the

13 playground, are we seeing an increase of

14 students eloping from classrooms, are we seeing

15 evidence of reduced attendance.

And then they come up with

17 intervention plans to address that, and then

18 those reports are then turned into our student

19 relations department.

20 Q. Where are the school-level weekly

21 and monthly discipline data? Where is that

22 kept?

A. That -- the data comes from Synergy,

24 so they are able to pull a report directly from

25 Synergy, and then there is a meeting template

11 However, there's, you know, a multitude of ways 12 that we've identified harm. Off the top of my 13 head I can't speak to specifics, but I imagine 14 that there could potentially be additional. 15 It's hard to quantify all of the ways and all of 16 the things that we're seeing in the district. Q. So sitting here today are you aware 18 of any other types of damages that are not 19 included in this response? 20 (Witness reviewing document.) A. Off the top of my head at the 21 22 moment, no. Q. Okay. And then it says in the 24 second paragraph on page 4 that, "In calculating

I 15 don't know 100 percent certain that this would 16 be an exhaustive list. 17 Again, it's very intricate in the 18 way that our school districts are created and 19 who may be collaborating to support. This does 20 look like a fairly comprehensive list, but it 21 may or may not be completely exhaustive. Q. So looking at the first chart in 23 Exhibit 1 of this document, who was responsible 24 for selecting the positions to include in this 25 chart?

THE WITNESS: It's again -- it's highly influenced, right. Social media is a high connection point to the increase in social emotional needs of our students.

So my position in my department was, again, highly influenced because of the need of the support for anxiety, depression, social emotional learning needs on our campuses which we have identified as an increased need due to the

connection to social media. So in a roundabout way I guess my department definitely would have been created, again, because of the influence of the social media platforms.

Again, the increase of potential, on

A. That is not the type of data that we

5 generally would collect.

Q. How about data on how many students

7 have tablets?

A. The district has data around

9 district-provided devices, the number of

10 devices, but we do not track the number of

11 student personal devices, no.

12 Q. Is it your understanding that for

13 many TUSD students they would get cellphones or

14 tablets or other electronic devices from their

15 parents?

16 MR. CUTLER: Object to form.

THE WITNESS: That would be my 17

18 understanding.

19 BY MS. DEGTYAREVA:

Q. Does TUSD have any data on the

21 amount of time that students spend on their

22 cellphones or non-school-district-issued

23 devices?

24 A. So that can be tricky. We don't

25 have specific survey data. We have anecdotal

20 (Pages 74 - 77)

Page 78

- 1 data. We can also look at discipline data.
- So, again, going back to the code of
- 3 conduct, if any students have been disciplined
- 4 for improper use of technology, we would have
- 5 that data.
- Q. Just to be clear, I'm not asking
- 7 about data on how many times or how much time
- 8 students have been disciplined for using
- 9 cellphones, but just data on how often they use
- 10 their cellphone, at home, at school, in
- 11 violation of policy, not in violation of policy.
- A. So for -- obviously the violation of
- 13 policy would be indicated within our discipline
- 14 policies. I do know that the district may have
- 15 some anecdotal data around asking, you know,
- 16 teachers potentially on, you know, how often
- 17 they may be asking students to put away a
- 18 cellphone.
- 19 I do know, as part of preparation
- 20 for the litigation, potentially asking of some
- 21 students of how often they use cellphones, but
- 22 explicit data, that's not something that the
- 23 district is able to collect on a regular basis.
- Q. That anecdotal data, so starting
- 25 with asking teachers, is that data tracked
- Page 79
- 1 anywhere anecdotally? The anecdotal data, is
- 2 that tracked anywhere?
- A. Not to my knowledge explicitly. So,
- 4 again, through potential conversation data
- 5 around needs of support at schools, there's
- 6 anecdotal data through conversations, but to my
- 7 knowledge I don't believe it's explicitly
- 8 tracked.

14

- Q. In preparing to testify today, did
- 10 you review any documents that talked about what
- 11 teachers say regarding how much time their
- 12 students spend on cellphones?
- 13 A. Explicit documented data, no.
  - Q. And then you also mentioned that
- 15 there might be some anecdotal data from students
- 16 about how much they use their cellphones.
- 17 What anecdotal data are you
- 18 referring to there?
- A. So in -- just in conversations, I
- 20 know that when I, you know, talk with counselors
- 21 and they talk with teachers, they talk with
- 22 teachers about how often they're seeing students
- 23 on their phones, if teachers talk to students
- 24 about phones, that's really pervasive. Phones
- 25 are pervasive in our community. And so kind of

- 1 talking through that, but I don't have explicit,
  - 2 you know, written documentation around.
  - Q. I think -- and if I misunderstood
  - 4 you earlier, please let me know, but I thought
  - 5 you said that TUSD asks some students how often

Page 80

Page 81

- 6 they use cellphones, is that right?
- A. So in the past, as we have -- again, 7
- 8 looking at data, part of the process to evaluate
- 9 the code of conduct, I know that the student
- 10 relations department did hold -- they hold --
- 11 held some conversation opportunities, the
- 12 restorative practice facilitators at those sites
- 13 held conversation opportunities with students
- 14 around their perception of the code of conduct,
- 15 and I know that there were some questions around
- 16 the use of cellphones. I do not know whether or
- 17 not that data was explicitly tracked or stored
- 18 anywhere.
- 19 Q. So you don't know if that data
- 20 was -- the answers from those conversations were
- 21 recorded anywhere?
- A. I do not, correct. 22
- 23 Q. When were those conversations held?
- 24 A. So there was an update to the code
- 25 of conduct beginning -- so there was a committee
- - 1 last spring, so spring of '25 -- '24, where the
  - 2 student relations department was eliciting --
  - 3 was having conversations with students about the
  - 4 code of conduct. So it was through that spring
  - 5 that they were eliciting feedback on the code of
  - 6 conduct, which also included the improper use of
  - 7 technology.
  - 8 Q. And how many students participated
  - 9 in those conversations?
  - 10 A. The focus was primarily on middle
  - 11 and high school. I know that they were not able
  - 12 to speak to every student. So I do not know an
  - 13 exact number, but probably at least a couple of

Page 90 Page 92 1 Did I understand that correctly? 1 found in Student Conference? 2 A. Again, data anecdotally. So when 2 MR. CUTLER: Object to form. 3 we -- when students are absent or when students 3 THE WITNESS: It could potentially 4 are tardy, it is the expectation that parents 4 be, again, if it's student-level data, so a direct conversation with a student or a 5 will report the reasons for those absences. And 5 6 oftentimes we do have parents disclose to 6 direct conversation with a parent about a 7 teachers, to admin, to counselors that their 7 student. 8 child is playing video games or on their devices 8 BY MS. Are there any other databases where 10 it is affecting sleep, and then they have a hard 10 some of this anecdotal data might be found? 11 time getting them up in the morning and getting A. The majority of our data would be 11 12 them to school on time. 12 found in our student information system. So 13 Q. Are those parental reports saved 13 whether that be in Synergy with that Student 14 Conference or within the MTSS platform where 14 anywhere? 15 A. They could potentially be, again, 15 students -- or where teachers or staff may make 16 within the student information system. When 16 observations about either behavior or academic 17 counselors or administrators talk with parents, 17 needs of students, they would document that 18 we do have a place called Student Conference 18 within the MTSS part of Synergy, but all of that 19 where those are housed, but, again, some of 19 data would be in our student information system. 20 those conversations could be FERPA protected. 20 Q. The MTSS platform, is that all in 21 O. What is Student Conference? 21 Synergy, or is there a separate platform? 22 A. Student Conference is a section 22 A. It is all in Synergy, yes. 23 within Synergy. So it is a place in our student 23 Q. So is it your testimony that the 24 information system where support staff or 24 Student Conference data and the MTSS portion of 25 administrators may collect, again, anecdotal 25 Synergy, all of those may contain information Page 91 Page 93 1 data or data from talking to a student or 1 about students' use of social media? 2 talking to a parent to be able to collect that 2 A. Correct. 3 data so they have evidence of what that 3 Q. Now, does TUSD track whether on 4 conversation was about. 4 their personal devices students have parental Q. And what types of conversations or 5 controls enabled? 6 anecdotal data might be recorded in Student A. No. 6 7 Conference? 7 Q. And does TUSD track whether students 8 MR. No. 15 be noted in the Student Conference. 15 Q. Has TUSD ever attempted to study the 16 If a restorative practice 16 prevalence of social media use by students at facilitator meets with a group of students 17 17 TUSD? to have a -- what's called a restorative 18 18 A. 24 (Pages 90 - 93)

A. Again, as we look at our overall

23 needs of our system, teachers may report the --

25 opportunities for teachers to, you know, share

24 to administrators, so there's oftentimes

22

student-level connection data.

Q. So a lot of that anecdotal data that 25 you've been talking about today, would that be

23 BY MS. DEGTYAREVA:

21

Page 94 1 concerns, right. So if there's an issue of 2 classroom management or if students are 3 disruptive, there's again conversationally data. So the difficulty in a school 5 district is, a lot of the work that we do is 6 immediate and so it's a lot of conversation and 7 it's a lot of trying to kind of parse out what 8 is the reason behind some of the behaviors, and 9 so not a lot of that is tracked in any sort of 10 platform or any sort of actual, like, explicit 11 way. 12 I do know that, you know, when we 13 are looking, again, at triggers and reasons for 14 explaining maybe discipline, again, there's 15 conversational data around, Oh, I'm noticing an 16 increase of third graders that are bringing 17 their phones to school and I'm struggling to get 18 them to put them away in their backpack. So 19 then we might talk about what are the 20 interventions for that, but that's more 21 conversational at the different times within the 22 school day. 23 So there's a lot of opportunities 24 for teachers to collaborate amongst with 25 teachers and hear what they're seeing and what

Page 96 1 administrators to kind of analyze and 2 investigate some of those concerns. 3 But, otherwise, no, like a lot of 4 our work, it really does -- it's really 5 anecdotal. It's through conversations of 6 identifying, This is what I'm seeing, this 7 is, you know, the support that I might 8 need, and then coming together with teams, 9 then potentially, you know, reaching out 10 to district departments to provide maybe 11 some professional development or some 12 other supports and resources as needed. 13 BY MS. DEGTYAREVA: Q. So the Awareity data that you just 15 talked about, is that sort of an example of some 16 of the anecdotal data that you might have? 17 A. Awareity could be more of the, like, 18 explicit data in terms of the reporting of 19 concerns. So parents and community members have 20 access to that to report, 21 teachers/administrators have access to that to 22 report. But outside of that and our particular 23 discipline data, a lot of, like I said, the 24 anecdotal comes from conversation. 25 Q. So you've talked a lot about

Page 95 1 their needs are, then that may come up to the 2 level of the administrators. And then at the 3 district level again we look at overarching data 4 points such as discipline, so what are we seeing 5 in our schools based on the discipline. And again that could potentially be 7 conversations with administrators, conversations 8 with teachers that are not necessarily 9 documented anywhere. 10 Q. So you talked about teachers 11 reporting concerns to administrators. Are those 12 ever documented somewhere? 13 MR. CUTLER: Objection to form. 14 THE WITNESS: Again, they could 15 potentially. We don't necessarily have a 16 specific process for teachers for 17 concerns. 18 There is a platform within the 19 district called Awareity where -- it's a 20 digital resource where anyone in the 21 community can either report anonymously or 22 non-anonymously any concerns that they may 23 have, and so those would then go to the 24 regional assistant superintendents, and

then they would work with the

1 anecdotal data and conversations. Does TUSD 2 have data on a specific -- what specific 3 percentage of its students use defendants' 4 platforms? 5 MR. CUTLER: Objection. Asked and 6 answered. 7 Go ahead, answer again. 8 THE WITNESS: No, we do not. We're 9 not able to track. So, again, we don't 10 have any access to personal devices of students, so we're not able to track 11 12 how -- what platforms they're using and 13 how often. 14 BY MS. DEGTYAREVA: 15 Q. And you've also talked today about 16 social media. Does TUSD have any data on how 17 many students use social media applications that 18 are not defendants' platforms? 19 A. Again back to, again, our discipline 20 data, right. So when we look at disciplinary 21 action, if there's a fight, if there's an 22 aggressive act, if there's improper use of 23 technology, that would be potentially indicated 24 in that data, whatever platform that is being

And when we, you know, do talk to teachers about, like, what are the needs and the concerns within the school system in our behavior management team meetings and looking at that discipline-level data, some, you know, evidence of analysis can be connected and developed as we, as a whole, as a district, attempt to respond and identify the interventions that might

need to be put in place.

But anything formal, I am not aware
that we've conducted anything explicitly
formal that we would be able to provide a

conduct.

Q. So when you say that some analysis 24 can be developed, what analysis are you talking 25 about?

Page 103

A. Again, review of data. So, again,
review of the discipline practices, review of
talking with teachers of what are we seeing on
campus, how often are, you know, students
interrupting classrooms because of use of social
media; when we look at school safety data, the
number of times, you know, school safety
officers were deployed to a school in relation
to a social media complaint or disciplinary

10 infraction.

11 Kind of that overall collective

12 identify what is happening in our system, we
13 pride ourselves in keeping our thumb on the
14 pulse of what's happening in our system to then
15 drive the operations and the policies in order
16 to better support our schools and community.
17 Q. So has TUSD ever conducted such an
18 analysis of review of data?

19 A. Like I said, we've not explicitly

to better support our schools and community.

Q. So has TUSD ever conducted such an analysis of review of data?

A. Like I said, we've not explicitly created any sort of report. Again, through our operation, that's just kind of the way that the school district works, is we're not set up in a way to explicitly collect hard data on a regular basis, the majority of the school district

25 operating as what we would consider, like, soft

Page 104

1 data when we're looking at from school to

2 school.

3 So we have 88 schools plus a virtual 4 school that all of them are going to have

5 different needs, and so, again, looking at

6 collective data points trying to get a better

7 idea of what the school systems need to then

8 better be able to ensure that we're meeting

9 those needs to the best of our ability.

10 Q. Has TUSD ever conducted this type of 11 analysis of soft data?

12 A. I mean, it's ongoing. We do it all 13 of the time. So all of our schools, again,

14 every school creates, you know, targeted plans

15 for how they're going to address and support

16 their school climate and culture.

17 One thing that we did recognize

18 through, again, that soft data was the need for

19 PBIS, positive behavior intervention supports,

20 on all of our school campuses. And so I do know

21 that our student relations department was tasked

22 with ensuring that every school received four

23 hours of professional development, and that was

24 in the '23-'24 school year, so deploying their

25 staff to provide ongoing training on how to

Page 105

1 implement positive behavior intervention systems

2 on school campuses, how to train and support

3 teachers in how to respond to behaviors.

4 So those kind of soft data then turn

5 into practices where we then identify supports 6 needed.

7 Q. You mentioned that every school

8 creates targeted plans. Are those plans

9 documented somewhere?

10 A. So every administrator does go

11 through an evaluation process with their

12 supervisor, the regional assistant

13 superintendent, and part of that evaluation is

14 to create action plans based on school-level

15 data.

16 Q. And so are those action plans

17 documented somewhere?

18 A. I imagine they would be with the

19 regional assistant superintendents.

Q. So each regional assistant

21 superintendent would have the action plans for

22 the school they're assigned to?

A. It's part of the evaluation process

24 for the school administrator, so, yes, it would

25 be part of that evaluation.

27 (Pages 102 - 105)

Page 106 Page 108 1 Q. And you also gave the example of how 1 with discipline data, to then identify 2 you recognize the need for PBIS using soft data. 2 what are the additional supports that are 3 Was there an analysis conducted and documented 3 needed on the school campus. 4 that then led you to the conclusion that you 4 BY MS. The data would be in 22 personnel. 23 the practice, so then the practice of 23 Q. Is there a database they use to 24 implementing the PBIS would be probably the 24 collect and house it? 25 closest amount of hard data that we would be 25 A. Yes. So there's a TUSD database Page 107 Page 109 1 able to produce. 1 that is utilized, yes. Q. You mentioned -- you've been talking 2 Q. And what is that called? 3 about things at the district level at times. 3 A. Called TUSD Web Data. 4 Has there been any analysis done at the 4 Q. What other types of data are in TUSD 5 individual school level? 5 web data? MR. CUTLER: Object to form. A. School letter grades, attendance 6 6 7 data. I'm not sure if discipline data is there. 7 Go ahead. 8 THE WITNESS: So the district does 8 Academic data, so the -- my brain is fried. 9 regularly review different data points. 9 It's now called AASA, it used to be called AZ 10 So we've talked about in my 10 Merit, the national testing that we do in the 11 preparation of looking at our publicly 11 country that we're required to do. 12 available school letter grades, so looking 12 So that's that yearly data, you 13 know, ACT data, and then the district also has 13 at, you know, based on school letter 14 14 quarterly benchmarks, academic benchmarks, and grades per school, what, you know, are the 15 overall responsibility of the school and 15 so that data would also be housed in there to 16 supports that are needed, similarly to, 16 look at the overall academic.

Page 110

- 1 parents to inform us of any of that. However,
- 2 we do have a system in place where we refer to
- 3 local behavioral health agencies for mental and
- 4 behavioral health support.
- Q. So if a student sought out mental
- 6 health treatment without being referred by TUSD,
- 7 TUSD wouldn't have that data?
- A. We may or may not know.
- Q. You say you may or may not. In what
- 10 circumstances would you have data about a
- 11 student who sought mental health treatment
- 12 without being referred by TUSD?
- 13 A. If a parent disclosed that
- 14 information to the school district.
- Q. And for the data on TUSD referrals
- 16 of mental health treatment, where is that data
- 17 tracked?
- A. So that is through Arizona Complete 18
- 19 Health. We work with that agency, and they help
- 20 us monitor that referral data.
- So through the social emotional
- 22 learning department we collaborate, we have
- 23 memorandums of understanding with five local
- 24 health -- behavioral health agencies, and every
- 25 one of our schools is assigned to one particular
- - Page 111
- 1 behavioral health agency. And then our school 2 counselor is the main referrer to that agency
- 3 with parental support, with parental permission.
- Q. So data on every student who is
- 5 referred to one of those agencies is in Arizona
- 6 Complete Health system, is that right?
- 7 A. Correct.
- 8 Q. And what type of data is recorded in
- 9 that system about the referrals?
- A. So that is just the number of
- 11 referrals. So due to HIPAA, we then do not
- 12 receive any sort of data back from the agencies
- 13 on whether or not students are engaging in
- 14 services or how often, so we just have our
- 15 number of referrals of students referred to
- 16 agencies.
- Q. Would you receive any data on
- 18 whether a student is ultimately diagnosed with
- 19 any mental health condition?
- A. Only in the case if there was a
- 21 release of information. If the parents approved
- 22 a release of information from the agency to the
- 23 school, that may be disclosed. But that is not
- 24 necessarily trackable data. That may just be
- 25 used internally at the school to identify any

Page 112

- 1 additional resources that the school may be able
- 2 to support with.
- Q. So for those cases where the parents
- 4 do disclose diagnosis data, that diagnosis data
- 5 is not tracked anywhere?
- A. Only in terms of if it is then used.
- 7 If it's used -- if there needs to be like a
- 8 chronic health certification in the health
- 9 office or if it's used for any intervention data
- 10 within the MTSS system, it may be documented.
- 11 If it's not being used by the school in any way,
- 12 then, no, it would not be documented.
- 13 O. Does the referral data that's
- 14 tracked in Arizona Complete Health system, does
- 15 that include the reason for the referral?
- 16 A. It does not.
  - Q. Does that include any information
- 18 about whatever interaction led to the student
- 19 being referred?

17

- 20 A. Not in that data. Our school
- 21 counselors, again, they facilitate the referral
- 22 process, and so if a student needs to be
- 23 referred, that information would be part of that
- 24 referral process. I believe that information
- 25 would be FERPA and HIPAA protected.

Page 113

- Q. And where is the information about 2 the referral process stored?
  - 3 A. That is within our -- in the social
  - 4 emotional learning department operating
  - 5 procedures in our SharePoint around what schools
  - 6 are referred where, and then we actually connect

  - 7 the schools with the agencies themselves, and 8 then they work directly with the agencies to
  - 9 identify what that referral process is and
  - 10 whether or not they have a specific referral
  - 11 form.
  - 12 Q. So this social emotional learning
  - 13 department has a SharePoint that includes
  - 14 information about why students were referred
  - 15 to -- for mental health treatment?
  - A. No. Just the process of -- just the
  - 17 higher-level information of which schools are
  - 18 assigned to which organization and which agency.
  - 19 But, no, we do not track any of that
  - 20 reason data around why a student may or may not
  - 21 have been referred.
  - 22 O. Does anyone else in TUSD track that
  - 23 reason data?
  - 24 MR. CUTLER: Object to form.

A. I do not. It looks as though this

Page 130 Page 132 1 Facebook/TikTok challenges that were in that 1 it may or may not be indicated in any of those 2 time frame, and then the reports from school 2 databases. 3 personnel to report the reasons behind why they 3 Q. Now, you mentioned that the time 4 frames listed here correspond to some specific 4 needed these -- fixes needed to be fixed. Q. How did TUSD identify the incidents 5 social media challenges. 6 that were -- that it attributed to social media? 6 Can you please provide more A. Again, part of the reporting process 7 information about that? 8 to request a facilities or maintenance request, 8 MR. CUTLER: Object to form. 9 there are specific components in the requests, 9 THE WITNESS: So, again, staying on 10 so school staff will denote a reason behind why 10 the pulse of what's happening, so, for 11 they need a particular facility's request to be example, we know that there was a lot of 11 12 completed. social media challenges, TikTok challenges 12 within a lot of these time frames where 13 Q. And where is the data about those 13 14 there were videos that were posted that 14 requests stored? A. That would be within our facilities 15 were encouraging students to slap their teacher and take a video of it, of ripping 16 and maintenance database. 16 17 O. Does that database have a name? 17 off sinks, ripping off paper towel A. It eludes me at the moment. dispensers, soap dispensers. 18 18 19 19 So there was a lot of challenges Q. And so that database would include a 20 narrative response that explains the reason for 20 that were being posted that many of our 21 the incident? 21 students felt the need to emulate and then 22 A. Correct, yes. So whenever -- again, 22 basically get, you know, likes and 23 when there's a facilities request made, the 23 accolades for. So a lot of these would 24 school or the personnel will denote the date, 24 correspond to some of those specific 25 what was vandalized, where, what needs to be 25 challenges that we knew of that were Page 131 Page 133

1 fixed and why.

- Q. Did TUSD take any steps to verify 3 that these instances of vandalism listed in the 4 charts were, in fact, related to social media 5 platforms? A. I can't speak to every one, but I do
- 7 know that as part of the investigative process, 8 especially at these higher level, there's 9 generally an investigation around what has 10 particularly happened.
- And then, as you can see, kind of 12 categories and time frames, they all correspond 13 to specific social media challenges, so
- 14 backwards mapping, and then having conversations 15 with students and investigating some of the

16 reasons.

- 17 Like I said, I can't speak to every 18 single, but I do know that many of them were 19 investigated.
- 20 Q. And are the details or results of
- 21 those investigations, is that recorded anywhere?
- A. If a perpetrator, so to speak, was
- 23 identified, then it would be within the
- 24 disciplinary database. But if it could not
- 25 identify a specific person who did the damage,

1 occurring during that time frame.

2 BY MS. DEGTYAREVA:

3 Q. So can you explain which of these 4 incidents correspond to which social media 5 challenge?

MR. CUTLER: Object to form. 6 7

THE WITNESS: Again, there's so many 8 dates here and so many. I couldn't speak 9 to specifics without going through and

10 evaluating all of the data that we may

11 have.

12 BY MS. DEGTYAREVA:

13 Q. Just sitting here today looking at 14 the chart, are there any that jump out at you as 15 ones you can identify as being associated with a 16 specific challenge? 17 A. A lot of the bathroom -- the

18 bathroom specific ones were definitely. Some of

19 the ceiling tiles and vandalizing, some of those

20 were also, things like steal this, steal that. 21 The sinks. A lot of the bathroom was a big

22 component of those challenges. I know that for

23 sure.

24 Q. So when identifying these incidents, 25 did TUSD include -- so, for example, if there

34 (Pages 130 - 133)

Page 134

- 1 was a social media challenge related to
- 2 bathrooms at a particular time, did TUSD include
- 3 every instance of vandalism that happened in a
- 4 bathroom at that time?
- A. That, I'm not sure of. I imagine
- 6 somewhere, if there wasn't a need for a fix, it
- 7 may or may not have been. It may have all been
- 8 just looped in to, you know, Henry Elementary
- 9 bathroom vandalism.
- 10 So I can't speak to all of the
- 11 specifics, again, without being able to see all
- 12 of the particular facility's requests.
- 13 Q. Do you know if for each of these
- 14 incidents there would be a record somewhere that
- 15 specifically ties the incident to a social media
- 16 challenge?
- 17 A. Again, I believe I've answered that,
- 18 but it, again -- it would determine if I were to
- 19 look at the specific facility request.
- Q. I think my question is, do you know
- 21 if, for each of these, the facility request, it
- 22 specifically stated that it was a result of a
- 23 social media challenge?
- A. I do not know if every single one of
- 25 these would have a social media challenge

Page 135

- 1 specifically noted in the facility's request. I
- 2 have not reviewed every single facility's 3 request.
- Q. Does TUSD have any basis to believe
- 5 that defendants promoted or encouraged any of 6 the challenges that you were referencing?
  - A. Can you repeat the question?
- Q. Sure. 8

7

- Does TUSD have any basis to believe
- 10 that defendants promoted or encouraged any of
- 11 the social media challenges that you were just
- 12 referencing?
- A. Well, I would say that the inherent
- 14 nature of the platforms and the creation of the
- 15 likes and the reposts and whether or not you can
- 16 go viral and the way that the algorithms work on
- 17 certain platforms, on what gets viral, what's
- 18 not, I would gauge to say that yes, that they
- 19 would have some knowledge and promotion of that
- 20 just in the way that inherent algorithms work
- 21 within the platforms.
- The component of the likes and the
- 23 love and the repost and the reshares, that is, I
- 24 would say, evidence in the way that it's created
- 25 to continuously create an opportunity for

1 students to want to engage and get the likes and

- 2 get the clout, so to speak, from engaging in
- 3 those instances on social media, yes.
- O. And other than the incidents
- 5 identified in this chart, are you aware of any
- 6 other property damage that TUSD believes it
- 7 suffered as a result of social media?
- 8 A. That would be difficult because I've
- 9 not memorized all of these. I do know that --
- 10 for example, I do know that -- can you repeat
- 11 the question? I apologize.
- 12 Q. Sure.
- 13 Apart from the incidents that are
- 14 listed in this chart, are you aware of any other
- 15 property damage that TUSD believes it suffered
- 16 as a result of social media?
- 17 A. So at a higher level, again, making
- 18 kind of that causal link between social media
- 19 and property damage, what we are seeing is that
- 20 due to either students being left out on social
- 21 media or if they're social media posts or -- and
- 22 then also a lot of -- there's a lot of, like,
- 23 fight pages where students are videoing other
- 24 students on campus in a fight, and then what
- 25 happens then is either the fight breaks out,

Page 137

Page 136

- 1 something might get broken. We do know of other
- 2 people actually getting hurt on school campus
- 3 and property. We've had teachers that are
- 4 getting pushed and hurt.
- I don't know if any of our other
- 6 information on here, such as we were having
- 7 desks flipped and things were thrown in
- 8 classrooms, and we are attributing that to,
- 9 again, the disruption of the use of social media
- 10 and the way that it's affecting students being
- 11 able to regulate their emotions.
- 12 And so it may not be explicit on
- 13 here, but we have seen, like I said, tables are
- 14 being flipped. We've got even elementary
- 15 students that are flipping chairs, where we have
- 16 to evacuate students when we've got tables
- 17 broken, teachers' desks are broken, books are
- 18 ripped up, things are thrown.
- 19 And so all of that has a direct
- 20 causal link to what we're seeing as an increase
- 21 of anxiety, depression, social isolation,
- 22 students not being able to problem-solve and
- 23 being able to regulate themselves as a response
- 24 to what they're seeing and what they're engaging
- 25 on on social media.

Page 163

Page 165

2 for the elementary students, if students do have

5 I know that Wakefield Middle School
6 has also instituted stricter cellphone policies.
7 Morgan Maxwell instituted stricter
8 cellphone policies as well as clear backpack
9 policies to then also be able to see that
10 cellphones were in backpacks versus on the
11 person.

I do know that Steele Elementary,

12 And those are just a few that I can 13 think of off the top of my head.

14 Q. And where are those school-specific 15 policies, where are they recorded?

16 A. In the school-specific handbook and 17 guidelines for the operation of that school.

Q. So each school has a handbook that contains a cellphone policy, or do not all schools have the specific cellphone policy?

A. So every school should have a 22 handbook that at least has the governing board's

23 cellphone policy. And if they have any

24 additional requirements regarding cellphones,25 then that would be indicated in their cellphone

1 be confiscated, and after a certain number of

2 instances it will either be turned in to the

3 office or kept until a parent can come pick it

4 up.

5 There are, maybe, some specific 6 individual students that have an intervention

7 plan that requires them not to have a cellphone,

8 but, again, that would be determinant upon

9 school discipline data and in partnership with 10 administration.

11 Q. So apart from Steele Elementary

12 School, is there any other school in Tucson13 Unified School District that requires every

MR. CUTLER: Object to form.

19 BY MS. DEGTYAREVA:

20 Q. You talked about Wakefield Middle

What did that policy require?

A. So that is, again, having students -- requiring students to have

25 cellphones in backpacks and more of the

- 1 implementation of the expectations around the
- 2 discipline. So they have enacted stricter
- 3 cellphone policies in terms of seeing it out and
- 4 monitoring that students have it out during
- 5 instructional practice times.
- Q. Apart from Wakefield Middle School,
- 7 are you aware of any other school in the
- 8 district that has a schoolwide policy requiring
- 9 students to put their phones in backpacks?
- 10 A. I'm not thinking of specific names
- 11 on the top of my head, but I do know that the
- 12 majority of our schools do look at the cellphone
- 13 policy and do implement in ways appropriate to
- 14 their campus.15 Q. So, again, just going back to my
- 16 question, you are not aware of any other school
- 17 except for Wakefield Middle School that requires
- 18 students to put their cellphones in backpacks?
- 19 MR. CUTLER: Object to form.
- 20 BY MS. DEGTYAREVA:
- Q. Is that right?
- A. Not off the top of my head, correct.
- Q. Then you said Morgan Maxwell has
- 24 also instituted stricter cellphone policies as
- 25 well as clear backpack policies?

A. Correct.

- Page 167
- Page 167
- Q. So apart from the clear backpack
- 3 policy, is there anything else about Morgan
- 4 Maxwell's cellphone policy that is different
- 5 from the districtwide policy?
- 6 A. Again, it requires the cellphone to
- 7 be in the backpack.

1

2

- 8 Q. Are you aware of any other school
- 9 apart from Morgan Maxwell that has instituted a
- 10 schoolwide clear backpack policy?
  - A. I know that I had a discussion with
- 12 the principal of Morgan Maxwell, and she did
- 13 indicate. I believe there were one or two other
- 14 middle schools, but I am not recalling the name
- 15 of the middle schools off the top of my head
- 16 right now.
- 17 Q. Okay. So we've talked about Sabino
- 18 High School, Steele Elementary School, Wakefield
- 19 Middle School, Morgan Maxwell, and perhaps one
- 20 or two other schools that have also instituted a
- 21 clear backpack policy.
- Any other schools you can think of
- 23 sitting here today that have a stricter
- 24 cellphone policy?
- 25 A. Again, I know the majority of our

- Page 168
- 1 schools, they do enhance their cellphone policy.
- 2 I just am not recalling specifics off the top of
- 3 my head right now.
- 4 Q. Are you aware of the ways in which
- 5 the other schools enhance the cellphone policy?
  - A. I believe it's more in the
- 7 implementation of the discipline. One of the
- 8 difficulties lies in there's a lot of barriers
- 9 and pushback from community and from parents,
- 10 which can make it very difficult for
- 11 implementation of specific cellphone policies.
  - And so I know that majority of the
- 13 schools do attempt to follow this policy and
- 14 then establish additional guidelines. I do not
- 15 know at what extent every school -- we have
- 16 almost 90 schools in the district, so I do not
- 17 know to what extent all of the schools have
- 18 added additional guidelines.
- 19 Q. I want to ask a couple more
- 20 questions about Sabino High School and their
- 21 locker policy.

12

- What was the cost of implementing
- 23 cellphone lockers at Sabino High School?
- 24 A. \$14,000.
- Q. How big is that high school?
- Page 169
- 1 A. I want to say almost 800, 800
- 2 students.
- 3 Q. Has TUSD ever analyzed how much it
- 4 would cost to implement a cellphone locker
- 5 policy at every school in the district?
  - A. Not that I'm aware of with cost.
- 7 Q. And at Sabino High School, are
- 8 students still allowed to access their
- 9 cellphones during conference periods, passing
- 10 periods, and lunch?
- 11 A. They are required to put their
- 12 cellphone in every core and elective class. So
- 13 if they're not in a classroom, then they do have
- 14 access to their cellphone.
- 15 Q. Apart from the two policy documents
- 16 that we looked at, the two districtwide policy
- 17 documents, has TUSD implemented any other
- 18 districtwide policies regarding cellphone use?
- 19 A. So the governing board has had
- 20 discussions around implementing more stringent
- 21 cellphone policies. There comes a lot of
- 22 pushback and barriers within the community. We
- 23 do hear from a lot of parents that do not --
- 24 they have fear of their students not being able
- 25 to access their cellphones in emergent

- 4 And then our Verizon Innovative Learning Schools
- 5 use the iPads in lieu of a district-issued
- 6 Chromebook or laptop.
- Q. So this presentation for this
- 8 particular school, it then says at the bottom of
- 9 this page, "Grade K through 5 students will be
- 10 loaned Chromebooks."
- 11 A. Correct.
- 12 Q. So do all students across TUSD get
- 13 Chromebooks?
- A. We are a one-to-one school. So yes,
- 15 depending upon if there's iPad or laptop,
- 16 students do -- are loaned a device.
- Q. Okay. So just to make sure I
- 18 understand, every student across the district
- 19 gets some device, and it's either a Chromebook
- 20 or an iPad?
- 21 A. Correct.
- 22 Q. And are all of those devices able to
- 23 connect -- all those school-issued devices able
- 24 to connect to the unlimited WIFI offered by
- 25 TUSD?

- Page 175
- 1 A. Those devices are able to connect
- 2 TUSD WIFI when they are on TUSD campus.
- I don't know about the terminology
- 4 of "unlimited WIFI." For majority of our
- 5 students the district does not provide WIFI in
- 6 their home, especially not with the Chromebooks.
- 7 So I can't necessarily speak to what that word
- 8 "unlimited" necessarily means for the iPads. Q. So the WIFI is available on all of
- 10 the devices while they are at school?
- 11 A. Correct.
- 12 Q. Does TUSD limit what apps can be
- 13 downloaded on the iPads or the Chromebooks?
- 14 A. Yes.
- 15 Q. And what are the limitations?
- 16 A. So for downloading of apps, they all
- 17 come prestandard. So students are not able to
- 18 download any specific apps of their choosing.
- 19 So the Chromebooks are -- the district has
- 20 identified the appropriate learning apps that
- 21 are able to be used, and then those are
- 22 preloaded onto those Chromebooks.
- Q. Does TUSD place any limits on what
- 24 websites can be accessed on the iPads or the
- 25 Chromebooks that are issued by TUSD?

- 1 A. Yes.
  - 2 Q. And what are those limits?
    - A. So the district does engage in
  - 3 4 filtering practices for all WIFI, for both staff
  - 5 and students. And so all social media platforms
  - 6 are not allowed to be used by students on TUSD
  - 7 WIFI.
  - 8 And then keyword, there are specific
  - 9 keywords within that filtering that would block
  - 10 specific content based on keywords that have
  - 11 been determined by our technology department.
  - Q. You said all social media platforms 12
  - 13 are not allowed to be used by students on TUSD
  - 14 WIFI.
  - 15 Which specific social media
  - 16 platforms are not permitted on the WIFI?
  - A. Facebook, Instagram, TikTok, X. The
  - 18 other platform names are escaping me. Snapchat.
  - 19 Facebook, Instagram, TikTok, Snapchat, X,
  - 20 Discord. Those are the main ones that are
  - 21 coming to mind.
  - 22 Q. Are there any other websites that
  - 23 students can't access on the TUSD WIFI?
  - 24 A. Again, it's based on content, so
  - 25 content filtering.

Page 177

Page 176

- Q. Just make sure I understand, for the
- 2 social media platforms you just mentioned, are
- 3 those based on content filtering, or are those
- 4 just completely prohibited?
- 5 A. Those are just prohibited.
- Q. So are there any other websites that
- 7 are completely prohibited and not based on
- 8 content filtering?
- 9 A. Any websites that would have to do
- 10 with pornography, any other websites that would
- 11 be explicit content that would be not
- 12 appropriate for students.
- 13 Q. Any other specific websites you can
- 14 think of?
- 15 A. I'm trying to think, because there's
- 16 been some websites that even -- oh, so things
- 17 like Netflix, Hulu, streaming services are also
- 18 blocked. Students are able to access -- I'm
- 19 sorry. It's 6:11 on Tuesday. So I'm having a

MR. CUTLER: Object to form.  THE WITNESS: The school district tries to keep up with the times. And we know that the majority of our students and our parents, they utilize social media more so than maybe e-mail, so in order to be able to provide regular information, it does leverage the platforms that the community is using, yes.  MS. DEGTYAREVA: Let's mark as Exhibit 20 tab 23.  (Tucson-30(b)(6)-Shivanonda-20 was marked for identification.)  BY MS. DEGTYAREVA: Q. Do you see at the bottom of this page it says Tucson Unified School District?  A. I do. Q. And then the document appears to be titled Get Ready for Tucson College Night.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Page 189 A. Correct. Q.
